REBELS PROPOSE TO ATTACK ALL PROPERTY

In Order to Precipitate American Intervention.

IF PALMA DOES NOT MAKE PEACE

Insurgent Leader Declares They Will Do These Things Because They Are Certain the U. S. Government Does Not Want To Annex Island.

New Orleans, Sept 24.—A dispatch to the Picayune from Havana, gives a signed statement by the insurgent leader, General Ernesto Asbert, in which he says that if peace is not made by the Palma administration, the revolutionists propose to attack "all property" in order to precipitate American intervention.

"And this we will do," Asbert continues, "because we are absolutely certain that the present government of the United States does not aspire to annex our youthful republic since President Roosevelt, who personally helped to destroy the Spanish regime, has the ambition to be the guardian of our liberties and, now as before, will lend his disinterested efforts to the work of justice which we support.

Havana, Sept. 24.—A congressman, whose relations with the administration are exceedingly close, asserts this morning that President Palma and the members of his cabinet, probably would resign today and that intervention was expected.

Washington, Sept. 24.—Naval officials do not propose to take any chance in the present emergency in the matter of coaling supplies for ships that may be needed for Cuban service. Therefore they are looking around for a barge with a capacity of not less than 2,500 tons, which, it is proposed to have moored at some convenient place near Newport News. It is the intention to keep the barge filled to its utmost capacity at all times.

Body of Bishop Hoare Sighted.

Hong Kong, Sept. 24.—The steamer Shao from Canton, sighted the body of Bishop Hoare, the Angelican bishop, who was drowned in the recent typhoon off Castle Peak bay. A party on board the Steamer Stanley has been dispatched to recover the body. The governor of Macoa offered to send a gunboat, Rio Lima, to stand by the steamer Heung Shan, but the offer was declined with thanks because a torpedo boat had already been sent on the same mission. It is officially reported that the Huon Shan's back is broken. A dredger has been despatched to the scene of the steamer Kin Shan, stranded, and is confident of success. An attempt to tow off the stranded steamer Fatshan was unsuccessful. Its position, however, is secure.

Armour Wants to Retire

New York, Sept. 24.—It was rumored around the board of trade, according to the Journal of Commerce, that J. Ogden Armour, head of the big packing company, is tiring of the turmoil of business and wishes to retire therefrom to take a more prominent part in social affairs. The late exposures in the packing houses at Chicago have caused Mr. Armour not a little worry and he is about ready to discard his business troubles for a life more replete with pleasure. The Armour Packing company was organized in 1866. The company's issued capital is $20,000,000.

Standard Oil and Labor Fight.

Chicago, Sept. 24.—The Chronicle says that warfare between the Standard Oil company and the labor unions of the country was begun Friday night when the Whiting, Ind., employes of the company quit work to enforce their demands for an increase in wage. The strike, which already threatens to tie up the business of the big corporation in the middle west, is likely to assume gigantic proportions before it is ended. It was predicted last night it might involve all of the employes of the company in the country and become a general one.

SAGE HEIRS ARE QUIETED.

Contest of Will of Multi-Millionaire Called Off.

New York, Sept. 24.—The will of Russell Sage was presented to the surrogate Friday and proved without contest. Counsel for the executors announced that Mrs Sage intends to give to each of Mr. Sage's relatives who are beneficiaries under the will an additional sum equal to the amount of his or her legacy provided there is no contest. This was accepted as satisfactory by Senator Edgar T. Brackett, of Saratoga, who was in the city preparing to contest the will in behalf of Edison M. Coonrad, of Schenectady, N. Y., a grandson of one of Mrs. Sage's sisters. Under this settlement Coonrad will receive $12,500, instead of $6,250, and each of the 266 nephews and nieces of Mr Sage who were to receive $25,000 will be given $50,000.

When the will was presented to the probate clerk for proving several attorneys appeared in behalf of the heirs but none offered objection to the proving of the paper. The witnesses to the will then testified that Mr. Sage was of sound mind and under no restraint when he signed the will and declared it to be his last will. The probate clerk declared the will proved and ready for submission to the surrogate for his decree admitting it to probate.

Henry deForest, counsel for the executors, made the following announcement:

"Assuming there is no contest of Mr Sage's will, Mrs. Sage has intended and intends to give to each of Mr. Sage's relatives beneficiaries under his will an additional amount equal to his or her legacy and to do this as soon as possible after she qualifies as executrix."

The actual probating of the will is yet to be decided by the surrogate.

MACHINISTS MAY ORDER STRIKE.

Higher Wages Wanted by Men at the Southern Shops.

Atlanta, Sept. 24.—It is reported that 250 machinists employed at the Southern railway shops, in Atlanta, are making preparations to demand an increase of 25 c per day over their present wages. As these machinists now get $3 per day, this raise, if granted, will mean wages of $3.25 per day. It is also reported that this same demand will be made by others at different points along the system, to the number of 2,000 machinists.

There was also a rumor to the effect that a cut in the force of men engaged at the Atlanta shops of the Southern was contemplated. Both reports were denied by Southern officials Friday.

In spite of this denial, it was stated that the matter was now in the hands of the executive committee of the Machinists' union, and that some definite action was expected in a few days. While some of the men were of the opinion that a strike would follow if the request was not granted, there were others who believed that the entire matter would be disposed of by the granting of the demand by the Southern, the claim being made that the existing scale in Birmingham is now $3.25 per day.

They Held Negro in Bondage.

Cape Girardeau, Mo., Sept. 24.—The jury in the Smith case returned a verdict of guilty against Charles M. Smith and Charles M. Smith, Jr., and the five tenants of their farms on the eleventh count in the peonage cases. The eleventh count of the 44 indictments refers to John Reed, the negro who was with President Roosevelt in Cuba and escaped from the shack on the farm by sawing his way through the floor at night. He was the strongest witness for the government. Sentence has not yet been passed. Judge Krum filed a motion for a new trial.

Officers Seek Slayer.

Savannah, Ga., Sept. 24.—The members of the Savannah police force got a tip Friday that the negro slayer of Conductor Sellers, of the Savannah Electric Railway company, had been seen at Bellville, in Tattnall county, and Officers Jernigan and Wood have left for that place. They found the suspect had gone, presumably, to Cordele. Information later is that the negro had not been caught.

BEGGED TO SETTLE CASE WITH NEGRO

Sensational Scene in Atlanta Police Court.

SITUATION WAS MOST INTENSE

Hundreds of White Men Stood About Father and Girl While the Police Formed a Cordon About Prisoner. Ran With Negro After Trial.

Atlanta, Sept. 24.—"I am the girl's father and there are few men who can appreciate my feelings who have not experienced what I have. I know the negro is now in the hands of the law out of my reach. If it possibly can be done, I beg that I be allowed to settle this case with the negro here and now."

Thomas L. Bryan, the father of Miss Orrie Bryan, of 232 Courtland street, was speaking to Recorder Broyles while Luther Farzier, the negro who attempted to assault Miss Bryan, was on trial. He was calm as he spoke, but there was a tone in his voice and a look in his eye that made the recorder and all others in the court room understand that the speaker was terribly in earnest.

"You know such a thing cannot be done," the recorder quickly informed him.

"I have no weapon, neither pistol nor knife," continued Mr. Bryan. "I have only these hands and fingers that God gave me, but if you will let me use them I can settle this case in a few minutes."

As he spoke the incensed father advanced toward the trembling negro.

Immediately there arose 300 or 400 white men who had packed the court room to witness the trial. Many of them stepped inside the railing. At the same time 40 or 50 policemen sprang to their feet. As the white men gathered behind Mr. Bryan and the policemen circled around the negro prisoner, Recorder Broyles saw that the situation was one that required to be dealt with quickly and with tact. He exclaimed:

"Let's hear the evidence first. Let's hear what the negro will have to say."

This remark had the effect of checking anw demonstration that might have been imminent, and the danger of an open outbreak in the court room was, for the time, over.

Not in many years has there been such a sensational investigation before the recorder of Atlanta's police court.

When the recorder had announced his decision and the negro was ordered sent to jail, there came another scene, which, but for the quick action of the police, might have resulted in a lynching in the very front of the police barracks and on a public street which was thronged with negroes.

When asked what he had to say, the negro prisoner replied:

"Judge, I don't remember a thing that happened last night. If the white folks say I was in that house I reckon it must be so. I got drunk with another negro and the last thing I remember was when I was in a barroom on Decatur street. I don't remember anything about taking off a part of my clothes."

All the while the negro spoke a squad of police formed a cordon around the negro.

"I will hold this negro without bond on the double charge of assault with attempt to rape and burglary," announced the recorder, "and I order him sent to jail."

Subsequently the recorder fixed the bonds at $5,000, stating that he knew such a bond could not possibly be given by the negro, and the law made it imperative that some sort of a bond be named.

Took Overdose of Laudanum.

Mount Vernon, Ga., Sept. 24.—John W. Smith, a prominent citizen, living near Higgston, Ga., took an overdose of laudanum with alleged suicidal intent, dying later. Mr. Smith was a prosperous farmer and well connected in the county. He had a large circle of friends and acquaintances, who are shocked to learn of his rash act. Domestic troubles are said to be the cause of his suicide.

OFFICERS FIND QUEER MONEY.

Searched Home of V. B. Baldwin in Doraville Friday

Atlanta, Sept. 24.—Call Officer Charles Brannon, of the local police force, accompanied Captain Wright, of the United States secret service to Chamblee, Ga., and at that place they took a rig to Doraville, a little village about 4 miles away. They searched the homes of V. B. Baldwin and Zan Talton for traces of the counterfeit money these men passed in Atlanta on Thursday night.

Friday morning both these men were taken from the police barracks to United States Commissioner Colquitt, and he committed them to the Fulton county jail to await indictment by the federal jury.

In the meantime Captain Wright and Officer Brannon had gone to Doraville, and found some 50 cent pieces, some pieces of the bogus money, and some plaster of paris on the knives which were used in making the spurious coin.

The traces of the counterfeiting were all found in the home of Virgil Baldwin. His wife would not allow Captain Wright to take the knives away, claiming she used them for eating. He, however, had enough evidence, and collected together the remnants of bogus money and brought it to Atlanta about 10 o'clock last night.

Thursday night Call Officers Norris and Brannon arrested these two countrymen on Decatur street for passing $2 of the counterfeit money. It was reported to the United States authorities, and hence the investigation.

The secret service officer says that he has had reports for some little time of this coin, but could not ascertain the place of manufacture. He thinks Baldwin must have made about $50 of the coin. The plates could not be found.

Friday night Call Officer Norris made a search on Decatur street for evidence as to the passing of the money, and obtained above five witnesses to the fact that the fake dollars had been handed out to them.

ROBBERS WORK AT BLACKSHEAR

Safe in Coast Line's Office is Cracked $700 Taken.

Blackshear, Ga., Sept. 24.—The Atlantic Coast Line's ticket office was entered by burglars, the safe blown and $700 was secured as booty. The entrance was made through the ticket office window, which opened into the colored waiting room.

It is supposed the safe was opened about the time a train was passing, as no one heard the explosion.

They also broke open a back door of the Blackshear pharmacy, but not finding the safe open nor any loose cash, they left without doing much damage.

They entered the postoffice through a back window, bending the iron rods used as guards sufficiently to crawl through. With an ax or a heavy hammer the lock was knocked off, but they failed to open the safe. The marauder took some change left in the cash drawer, but did not molest the mail, nor take any stamps.

J. O. Tillory, the agent for the Atlantic Coast Line railroad, lost $259 of his personal funds.

Situation Becoming more Menacing.

Tangier, Sept. 24.—The situation in Morocco is becoming daily more menacing. European properties at Tafilet, Rif, Mogador, Casablanca and even Tangier are threatened. Natives are equipping and organizing as if for a holy war, and the sultan's authority is non-existant. The sheiks in the Marekah region have demanded complete autonomy. Up to now the sultan has succeeded in preventing the big feudalories from uniting, but their power is growing daily. They intercept taxes, raise levies and expel officials sent by the sultan.

New Ecclesiastical Province.

Rome, Sept. 24.—The propaganda issued Saturday a proposal for the formation of a new ecclesiastical province to be composed of the dioceses of Galveston, Dallas and San Antonio and the vicariate apostolic of Brownsville, Texas. The new province will be created "Diocese of the new province of Texas," with headquarters at Galveston. Nicholas A. Gallaher, the bishop of Galveston, is to be made archbishop of the new diocese.

SEVEN LOSE LIVES IN JELLICO DISASTER

Names of Victims of Dynamite Explosion.

150 PEOPLE WERE INJURED

Property Loss Conservatively Estimated at Not Less Than Half a Million Dollars and May Exceed That Figure—Mayor Makes Statement.

Knoxville, Tenn., Sept. 24. A special to the Sentinel from Jellico, Tenn., says:

Revised estimates of the dead in consequence of the terrible dynamite explosion at this place Friday morning, show only seven fatalities instead of 12 as was believed Friday afternoon. However, five of those reported dead and who are now living, are believed to be seriously injured and may die yet. The known dead:

Jean Cooke.
Joseph Sellers.
Walter Rodgers.
Dennis Atkins.
James Reynolds.
John Gordan, a negro.
A Syrian, name unknown.

The list of injured numbers fully 150, and about 25 of these are so severely wounded that some of them may die.

The property loss is conservatively estimated at not less than half a million dollars and may exceed that figure.

Citizens of the town have begun heroically the work of rehabilitation, and it is now believed they will be able to cope with the situation without the necessity of outside aid.

Mayor R. B. Baird, of Jellico, Tenn., has received many letters and also telegrams from all parts of the country, volunteering aid for the stricken town. It being impossible to respond at once to all these inquiries singly, Mayor Baird has asked the Associated Press to circulate the following statement:

"We feel grateful for the offers of assistance which are coming in from all parts of the country, and for all expressions of sympathy. But we feel that we can handle the situation without outside help, and if we can, we prefer to do so."

$300,000 for Floating Manchuria.

Honolulu, Sept. 24.—The steamship Manchuria, which was floated last Sunday, is now in charge of United States Marshal Hendry, under an attachment placed by the Pacific Commercial Cable company for three hundred thousand dollars for the service of the Cable company's cable steamer Restorer in saving the Manchuria. It is alleged the Restorer constantly towed the Manchuria at great risk to the Restorer from the day the Manchuria went aground, Aug. 2, until Sept. 16. Pay is also demanded for the service of the Restorer in towing the Manchuria to Honolulu, after she was floated. The libel alleges that the Manchuria is worth $2,000,000 and that she had a cargo valued at half a million dollars.

Pope's Physician Ill.

Rome, Sept. 24.—A consultation has been held over Dr. Lapponi, physician to the pope, who is ill with cancer of the stomach. The physicians favored an operation, but this was opposed by Dr. Mazzoni and other surgeons who considered the patient too weak for the ordeal in spite of the fact that his heart is strong.

Coast Defense Sinking.

Amsterdam, Sept. 24.—A special dispatch from Nieuwediep declares that the Netherlands Coast defense ironclad Pelikoln, is sinking because of the opening of a sea valve which it is impossible to close. The boilers of the vessel are already submerged.

Four Strikers Executed.

Moscow, Sept. 24.—Four young persons attempted to rob a bank in Kiel Vitebsk and in the confusion to dash by a detachment of commercial guards escorting property. Two of [illegible] were executed promptly.

COL. MANN WILL BRING PEOPLE HERE

Is Only Awaiting the Opening Up of New Territory in Florida.

A MOST PROGRESSIVE CLASS

Col. Mann, Who is Industrial Agent of the Gainesville and Gulf Railroad, Declares He Knows Where to Get Good People, and Will Bring Them Here.

Col. A S. Mann has returned from Jacksonville, where he has been for the past two or three days in the interests of the Gainesville and Gulf Railroad, of which he is industrial agent.

Col. Mann is a hustler and declares that as soon as the road is opened to Tampa he proposes to settle the country along its line with a class of people which will be among the most industrious in the United States. "I know where to get them," he said, "and the only thing I am waiting upon is the time when the country will be properly opened up—which will be less than a year.

"What we want is farmers," continued Col. Mann. "We want people of all industries, of course, but the farmer is the fellow who makes the backbone of the country, and it is farmers and horticulturists that we are more especially desirous to secure."

Col. Mann stated that, through the agencies in the North, he had come in touch with the best element of farmers who desire to come to Florida—thrifty and well-to-do people who are desirous of settling down and making a good living with half the work or less than they have been accustomed to all their lives.

"The farmers of the North and Northwest are coming here to cultivate the rich and fertile lands traversed by the Gainesville and Gulf," he said. "They are coming here because it has been demonstrated to them that they can cultivate these lands with much less acreage and expense, and much less labor, than in the North, and within the next year or two there will be settled along the line of the Gainesville and Gulf a class of farmers which will be a credit to the State and a profit to the communities in which they reside."

Col. Mann is very enthusiastic, and declares that he is going to use his best endeavor to demonstrate to the world the diversified possibilities of this State in agriculture and horticulture.

The announcement of the marriage of Miss Lily E. Burke of Wauchula and Mr. A. C McCall of New Smyrna, which occurred in Jacksonville a few days ago, created no little surprise among the friends of this excellent young lady throughout the State. Mrs S——, Great Falls, Montana, writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs." Sold by W. M. Johnson.

Great Corn Crop for Oklahoma.

Guthrie, Okla., Sept. 24.—Secretary of Agriculture of the Territory of Oklahoma McNabb estimates an increase in corn acreage of 35 per cent over last year. The overage yield, he says, will be 50 bushels, or a total of 125,000,000 bushels. If this should hold good also throughout Indian Territory, with an acreage of 2,000,000, it will give an even 100,000,000 bushels. This woud be more than double the yield of last year for the two territories.

Men Past Sixty In Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

Curious Eyelashes.

An eyelash is pointed. A cut lash is blunt. A lash once cut never again becomes pointed. Every lash lives a variable time and then falls out to be replaced by a fresh one. When a cut lash so falls the newcomer is pointed. So any mischief resulting from cutting the lashes will be remedied by time. Opinions differ as to whether lash cutting promotes growth. That it renders the lashes unsightly is very certain.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. Best health tonic on earth. 50c. Guaranteed by all druggists.

Salt and Epilepsy.

"Whenever we get a call to attend a case of epilepsy," said an ambulance surgeon at Bellevue, "we always find the patient's neck and face covered with salt. The efficiency of salt as a cure for epilepsy is evidently a relic of some old country superstition, though just what it is we've never been able to find out."—New York Sun.

NEWS OF KILLING IN THE WEST END

Reported That Wm. Thomas Killed Maxie Scofield Monday.

TROUBLE NOT ASCERTAINED

Trouble Occurred At Willeford or Bell. Brother of Dead Man, Geo. W. Scofield, Received Sad Information From His Father, G. H. Scofield.

G W. Scofield received a telegram last night from his father, G. H. Scofield, at Willeford, stating that William Thomas had killed his brother, Maxie Scofield, and requesting him to come immediately. The tragedy occurred at 2 o'clock in the afternoon, but further particulars could not be learned. G. H. Scofield, father of the deceased, is engaged in the mercantile business at Bell, about five miles south of Willeford, on the Seaboard railroad, but the telegram did not state whether the killing occurred at Bell or Willeford. Nothing was known of the affair at Tyler, where the Thomas brothers are engaged in business, at least such was the reply received by The Sun over the 'phone last night.

A European Party.

The Times-Union of Monday has the following regarding the return of a Gainesville party who have been abroad:

"Mr. and Mrs. C. W. Chase, Miss Alice Nichols and Mr. B. Frank Hampton, all of Gainesville, formed a pleasant party that arrived in the city yesterday from a trip to Europe. Mr. Hampton said the party had a delightful time visiting various points of interest in Great Britain and on the continent. They arrived in New York Friday, stopped over in Washington for a few hours Saturday and reached here on the Atlantic Coast Line train yesterday afternoon. While in the city the party were guests of the Aragon."

HOSPITALS CROWDED

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From this Sad and Costly Experience.

It is a sad but certain fact that every year brings an increase in the numberofoperations performed upon women in our hospitals. Morethan three-fourths of the patients lying on those snow-white beds are women and girls who are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had plenty of warning in that bearing-down feeling, pain at the left or right of the abdomen, nervous exhaustion, pain in the small of the back, pelvic catarrh, dizziness, flatulency, displacements or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the trouble may make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.

Miss Luella Adams, of Seattle, Wash., writes:

Dear Mrs. Pinkham:—

"About two years ago I was a great sufferer from a severe female trouble, pains and headaches. The doctor prescribed for me and finally told me that I had a tumor and must undergo an operation if I wanted to get well. I felt that this was my death warrant, but I spent hundreds of dollars for medical help, but the tumor kept growing. Fortunately I corresponded with an aunt in the New England States, and she advised me to take Lydia E. Pinkham's Vegetable Compound, as it was said to cure tumors. I did so and immediately began to improve in health, and I was entirely cured, the tumor disappearing entirely, without an operation. I wish every suffering woman would try this great preparation."

Just as surely as Miss Adams was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure other women who suffer from female troubles, inflammation, kidney troubles, nervous excitability or nervous prostration.

Mrs. Pinkham invites all young women who are ill to write her for free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

THE UNIVERSITY OF FLORIDA WILL OPEN WITH GREAT HONOR

Many Distinguished Speakers of Florida Will be Here.

OUR PEOPLE ENTHUSIASTIC

They Have Worked Hard and Faithfully for the Interest of Education and the Introduction of a New and Improved System.

Everything is in readiness, or will be in readiness for the reception of the students of the University of Florida, which will transpire at the opening of the great State educational institution tomorrow.

A program had already been arranged by President Andrew Sledd of the University, and a most interesting program it will be; but the citizens, desirous of showing their appreciation of this great event, have asked permission and been granted the privilege of assisting or affiliating in these exercises.

The committee from the city, which is composed of B. R. Colson, L. J. Burkhim and Geo. P. Morris, have arranged to secure a fine band from Jacksonville, which will furnish music during the afternoon ceremonies. This band will have an orchestra, and the evening ceremonies will be alternated with choice selections.

It was at first thought that it would be right and proper to hold the exercises provided by the citizens on the public square, but after consultation it was decided to celebrate the entire occasion on the University grounds and at the buildings.

The ladies of the city will likely be present with light refreshments and hold a reception informally to the students. This reception will be held in the evening, and at the conclusion the young people will indulge in dancing.

It is the intention of our people to make the coming of the University to Gainesville one of the greatest in the history of the country.

The following is the program as entered by President Sledd of the University:

Opening Address—Congressman Frank Clark.

Response in Behalf of City—Hon. W. W. Hampton.

Education and Citizenship—Gov. N. B. Broward.

The University of the State of Florida—Hon. N. P. Bryan, President Board of Control.

The Unity of the State School System—Prof. A. A. Murphree, Woman's College, Tallahassee.

There will be many other speeches on educational and other lines, but the program as above has been mapped out for the occasion by the committee. Many of the best speakers in the State will be present.

The entire force or faculty of the University is now here, and represents as fine looking and intelligent body of men as was ever congregated in the South. They will enter the work with full interest and determination, and at the end of the term will proudly point with other citizens of Gainesville to the fact that the University of Florida stands among the first in the South for effect and efficiency.

A meeting of citizens was held in the office of B. R. Colson Monday afternoon, when final arrangements for the entertainment of the students by the city were made. A committee consisting of W. N. Wilson, B. F. Hampton, B. R. Colson, A. L. Vidal and J. R. Fowler were appointed, the duty of which committee will be to look after the interests of the University, and to work in co-operation with the University committee, of which Dr. Andrew Sledd is at the head.

It was decided that this committee will provide a reception at the University on the evening of Thursday, the 27th inst., to be followed by an informal dance by those who desire to participate.

Holloway, Thomas Hancock, Earnest Hancock, Samuel Sanborn, George Mathews, Stanley Gramling, Kentworth Johnson, Herbert Felkel, Robert Temple, George Ames and A Clyde Evans.

The boys are jubilant over the fact that they will go to work this year in an elegant and modern new building, also that they will have the pleasure of the term in Gainesville.

Patrick Doesn't Want Pardon.

New York, Sept. 21.—Albert T. Patrick, the lawyer condemned to die for the murder of William M. Rice, does not want a pardon, but vindication, says the American. The paper gives a brief interview with Patrick in which it quotes him as saying: "I would rather die in the electric chair than spend a year in state prison under a commutation of sentence." Patrick in his cell is directing the last fight for his life.

Street Sprinkler Out.

The Sun called attention on Saturday morning to the apparent negligence of those in authority in failing to have the street sprinkler in service during these long, hot and sultry days, when the dust came in clouds to mar the happiness and dispositions of the merchants who have been accustomed to display dry goods upon the sidewalks.

This notice has apparently had its effect, since the sprinkler "got busy" on Saturday—and it was such a relief, not only to the merchants, but to the pedestrians as well, as it kept the dust out of their eyes and nostrils.

Quiet at Atlanta.

The latest news from Atlanta last night was that the city was quiet and no further trouble was apprehended, the worst element of the negroes, who had caused the trouble, having been killed or run out of the city. Ten negroes were killed during the race war and forty injured.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scanty and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in its burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide is entirely new. As a result of the chemical laboratory destroys the dandruff germ, and of course stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

The Standard Oil Company is now preparing to take over the distilleries. They evidently want to make a corner on fusil oil.

Mr. Bryan says that his Madison Square Garden speech was misunderstood and misquoted. There is a good deal of excuse for the former but none for the latter.

The echoes of the doings of Cassie Chadwick with the Republican millionaires of Pittsburg are reaching the public through evidence in pending litigation in that city.

Seeing the experience that he has had with insurrections in Congress, it is no wonder that President Roosevelt looks upon President Palma as an amateur, and the tempest in Cuba as of the teapot variety.

The Navy Department has been besieged by an inventor who wants to make use of super-heated air in a marine engine. We have always hoped there would be some other outlet for it than The Congressional Record.

Representative Burton of Ohio persists in demanding that Senator Dick retire from the management of the Republican party, which he declares is the first step towards reform. But can anything reform the Republican party of Ohio as long as Forsker, Dick, Cox and even Burton are allowed to run it?

Important regulations have been issued by the Interstate Commerce Commission in regard to passes and excursion rates under the new Railroad Rate Law. Not everyone is fortunate enough to be able to ride on passes, but almost all sooner or later are able to take advantage of excursion rates, and there may be some satisfaction for the general public in the decision of the commission that railroads may declare excursion rates without first giving the commission thirty days' notice of their intention.

INSPECTION OF MEATS.

A decision has been asked by the Department of Agriculture from the Department of Justice which will determine whether or not foreign meat products shall be totally excluded from the United States. Such a decision would be almost unbelievable, yet there is serious prospect that such a construction of a new meat inspection law could be made and would be held legal by the courts. The new law, whose enforcement has been delegated to the Department of Agriculture, provides for very stringent inspection of all meat used in interstate commerce. Of course this government can appoint inspectors to look after American factories, but it cannot send similar officials into Great Britain and continental countries to inspect the products prepared there. It would also seem rather unfair to American food manufacturers should their food stuffs be subjected to a rigid government inspection, while foreign meat products could be imported with no inspection at all. In this contingency it is fairly possible that foreign meat products may be kept out of the country altogether, and this would work considerable hardship on the importer and the retail dealer as well as the epicure, who likes his various kinds of "wurste," his kippered herring, his dried boar's head, sardines, patte de foi gras, and all the other imported food stuffs which are annually consumed in America by the thousands of tons. It is just possible if the Department of Justice insists that a government inspection of foreign meat products is necessary, that other countries may be forced to adopt some sort of an inspection system which will bring them into conformity with our recently passed meat inspection law.

MONEY IN GRAPEFRUIT.

As evidence of what can be accomplished on apparently worthless land in many sections of Florida, The Fort Myers Press says:

"W. R. Washburn this week began shipping the grapefruit from his grove on Billies' Creek, east of town, and expects to send out one thousand boxes this week. We took a look over this grove this week and found a magnificent crop of grapefruit estimated at four thousand boxes by competent judges, and not a box of russet fruit in sight. The fruit for the greater part is well colored up, and Mr. Washburn expects to net ten thousand dollars on the crop. It might be said that Mr. Washburn has disregarded nearly all the recognized and established rules for working a grove, and has worked out ideas of his own. The very land that he has made this grove on was practically under water during the rainy season, but he has reclaimed it by ditching and diking, and it is now one of the best paying properties in Lee county. Mr. Washburn's estimate of $10,000 for the crop seems a low one, and if it pans out on this basis the ten acres will pay at the rate of one thousand dollars an acre."

The Washington Post is authority for the statement that "it is estimated that the two candidates for Governor in Vermont expended half a million dollars," but as the Republican majority was less than in any election since 1880, save one, the Republican investment does not seem to have been profitable. From another source it is claimed that the trusts and combines protected by the tariff and other corporations expended $250,000 to elect Littlefield, the Republican candidate for Congress in Maine. This corruption and political debauching of the voters by special interests protected by Republican legislation does not even bring forth a protest from our reform President.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are *starved* nerves. Dr. Pierce's Golden Medical Discovery *makes pure, rich blood*, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and strenuous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are *lasting*.

The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper *The Badge of Honesty*, in a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

Every ingredient entering into the world-famed "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement.

The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure triple-refined glycerine.

"The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing *only*. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

AN OPPORTUNIST PARTY.

The Republicans are evidently trying to mislead the voters in the election of Congressmen. First we had Speaker Cannon and President Roosevelt agreeing that there should be no revision of the tariff by the Congress that is to be elected next fall, which agreement if ratified by the voters would run until the Congress elected in 1908 commenced its sessions in December, 1909, which is over three years ahead. Then Secretary Taft, who President Roosevelt told a magazine writer to "boom" for Presidents, tells the voters of Littlefield's district in Maine that in his opinion the tariff should be revised, and his arguments seemed to favor such revision. A day or two later Secretary Bonaparte gives out an interview in which he declares there will be no revision of the tariff and that the President is the only issue.

The Republican leaders are evidently floundering in a quagmire of distrust of the issues of their own making and are preparing to change front as occasion may demand to keep them in power. The Republicans always were Opportunists, and never so much so as now under the hot and cold policies of the present administration.

The "House Warming" edition of The Pensacola Journal is a "hummer." It is one of the most extensive editions ever printed in the State, comprising five sections of eight pages each, filled to overflowing with well written articles concerning the past, present and future of the Deep Water City. Editor Mays is to be congratulated upon the publication in every respect.

It is reported that Chairman Shonts has sold $60,000 worth of junk from among the Panama canal fittings. There is no mention whether there was a previous canal commission among the collection.

$225,000 FEE FOR JOE BAILEY.

Kirby Explains Why He Employed the Senator.

Houston, Tex., Sept. 24—John H. Kirby, president of the Kirby Lumber company, made the following statement relative to the employment of Senator Bailey in connection with the sale of some of Mr. Kirby's interests in the Kirby Lumber company, for which, it was stated, Mr. Bailey received a fee of $225,000 for disposing of $3,000,000 on property, and in reply to published criticism, said:

"The statement that I employed Mr. Bailey because of his influence as a United States senator, is false. I employed him to reduce my possession of the Kirby Lumber company treasury assets that certain Wall street interests were fraudulently seeking to take from me. I employed Mr. Bailey because of his eminent ability as a lawyer, and his knowledge of Texas statutes and court practice, which enabled him to cope with the situation better than a New York lawyer could have done.

"The fee paid him was smaller than would have been charged by a New York lawyer able to successfully represent me."

President Ripley, of the Atchison, Topeka and Santa Fe, wired here today from Chicago:

"The statement that Senator Bailey ever had any character of negotiation with us is untrue. All of our transactions with Mr. Kirby, of the lumber company, were conducted by me, and with Mr. Kirby in person. I never saw Mr. Bailey in my life, and I never knew that he was connected with Mr. Kirby or the Kirby Lumber company as an attorney or otherwise."

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox of Midland, Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by all druggists.

YOUNG COOPER HAS BEEN INTERVIEWED

Philanthropist Will Be In St. Louis a Month.

SHARES INCOME WITH POOR

Talks of the Medicines He Controls That Have Been a Sensation in the East and Have Made Him His Present Fortune.

St. Louis, Sept 24—L. T. Cooper, or the "Great Cooper," as he is called, was seen in his hotel this morning by a reporter and proved to be a comparatively young man, as he is little over thirty years of age.

Mr. Cooper is the man who is said to have created a sensation in Eastern cities by his extensive charitable work and the enormous sale of two preparations of which he is the owner. While talking his face lights up with a smile, almost boyish in its expression, and he seems very young to have acquired the enormous fortune he is said to possess. When asked about his plans for his visit to St. Louis, he said:

"I shall remain in this city about four weeks. I have come here to introduce my preparations in my usual way and I will give the public ample opportunity to ascertain whether the claims I make for these medicines can be verified.

"It is one of my beliefs that every successful man should devote a part of his resources in aiding the unfortunate. I rely to a great extent on the public for information concerning families, or individuals who are in need, and I will, therefore, be very grateful to all who will send me the name and address of people who are destitute."

Upon being asked about the public removals of deafness, which he has made in Pittsburg and other cities, Mr. Cooper said: "I have appeared each night in the cities I have visited, before audiences that ranged from two to ten thousand people, and have stated that I would remove in less than three minutes' time deafness of years' standing.

"I have treated in public in this manner over a hundred people each night. I shall do this work in St. Louis to some extent, and I will then prove whether I am successful or not. It will be time to discuss this work after I have given one of these demonstrations, as my claims would now seem extravagant.

"The preparation with which I give these demonstrations is not the one to which I owe my success, as my New Discovery is my principal remedy. This preparation is for the removal of all forms of stomach trouble.

"I have not yet decided where my headquarters will be while here, but will know within the next twenty-four hours."

Officers Held for Murder.

Middlesboro, Ky, Sept. 24.—The grand jury of Lee county, Va., returned indictments against Kentucky officials who captured Frank Ball at Rose Hill, Va., on Aug 9, after a fight in which John Lee, a member of Ball's party, was shot and killed. The officers are charged with the murder of Lee. The men indicted are Rice W. Johnson, sheriff of Bell county; R. I. Givens, N. J. Wilburn, John Glinn, of Middlesboro, Ky., James Rollins, Ike Bibber, and John Wilson, of Pineville, Ky., all deputy sheriffs summoned by Johnson to assist in Ball's capture. Requisitions will be made for the men on Governor Beckham by Governor Swanson, of Virginia. Frank Ball was in jail charged with the murder of Jack Polen, a barber, and escaped from jail. He lived in the hills, for several months and the posse was organized to capture him. Ball's father is sheriff of Lee county, Va.

General Robert E. Lee

Was the greatest general the world has ever known. Ballard's Snow Liniment is the greatest liniment. Quickly cures all pains. It is within the reach of all. T. H. Pointer, Hempstead, Texas, writes: "This is to certify that Ballard's Snow Liniment has been used in my household for years and has been found to be an excellent liniment for rheumatic pains. I am never without it." Sold by W. M. Johnson.

Tell a Story of Suffering.

Seattle, Wash., Sept. 24.—Thirty-one of the crew of the wrecked whaler Alexander, arrived here on the vessel Harold Dollar. The crew tell a story of harships and suffering, having ben 13 days in an open boat and living on what little food they could quickly gather up, the entire time. The Alexander was wrecked at Cape Terry, near Banksland on Aug. 12. The ship sank almost immediately and the crew had to take to the boats with very scanty preparations. When they were picked up by the whaler Herman, the men were almost dead and only the greatest care saved them. The Herman took them to Point Barrow, when the Dollar picked them up and brought them to this city. Only men of the strongest physical powers could have survived the terrible sufferings that the men endured.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. It is the best remedy for coughs and colds. J. W. McCollum & Co.

AGGRAVATED CASE OF ECZEMA

Troubled Badly for Several Years With Eczema on Limbs and Wrists — Physicians Prescribe Without Any Benefit — Blotches Now All Gone.

ANOTHER WONDERFUL CURE BY CUTICURA

"For several years I was troubled badly with an eczema on my limbs and wrists. Physicians in several towns had prescribed for me without giving me any results. I had often used Cuticura Ointment and received relief temporarily. In the spring of 1904 I took the Cuticura Resolvent Pills and used the Cuticura Ointment for about five weeks, and at the end of that time there was not a blotch on me anywhere. This spring I took a few vials of the Cuticura Resolvent Pills as a precautionary measure, and will continue to do so every spring simply as a spring tonic, as they are so easy to carry with you, and they certainly fix your blood for the coming year. I now use only Cuticura Soap.

"The Cuticura Ointment and Pills certainly cured me of an aggravated case of eczema, and if it will help any other sufferer you are at liberty to use this letter. Respectfully, St. Clair McVicar, San Antonio, Texas, July 6, 1905."

S.S.S. PURELY VEGETABLE

The fact that S. S. S. is a purely vegetable preparation, containing not the slightest trace of mineral in any form, has been one of the strongest points in its favor during its forty years of existence. It is recognized everywhere not only as the best of all blood purifiers, but the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels and so damaging the system that even if the original cause of the disease has been removed, it is left in such a deranged and weakened condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral property in some form. Being made entirely of roots, herbs and barks it is absolutely harmless to any part of the system, and while curing disease adds strength and health to every part of the body. S. S. S. removes all poisons, freshens and purifies the blood and gives better and more lasting results than any other blood medicine. S. S. S. is the very best treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all troubles due to an impure or poisoned blood supply. Besides being the King of blood purifiers S. S. S. is the best and most invigorating of all tonics.

JUDGE IS INDICTED AGAIN.

Savannah Justice of the Peace Is Out of a Job.

Savannah, Ga., Sept. 24.—For the third time has Justice of the Peace Isaac Nathans been indicted by the grand jury of the superior court for malpractice.

He takes his indictment good naturedly and asks a suspension of judgment by the public until his defense is heard. Meanwhile he is a justice out of a job, as his commission is void pending his trial.

Judge Nathans has been indicted by the grand jury of the superior court, but both times before he succeeded in securing acquittals before the petit juries of the same court. Mr. F. F. Jones, the chairman of the grand jury committee of justice courts, seems to always find some evidence against these officers to base an indictment on. He has served in that capacity twice before, and had three justices indicted and two convicted. This time he had several justices before the grand jury, and the friends of one of them have been ruled by Judge Seabrook for trying to exercise an undue influence over the jury in his behalf.

The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by all druggists. Price 50c and $1.00. Trial bottle free.

Form Independent Labor Party.

Victoria, Sept. 24.—The trades Congress in convention here with delegates from all parts of Canada have decided to form an independent labor party to enter federal and local politics. It was decided to call a convention of the executives of the various provinces to arrange details for the formation of the party which will be the third party in Canada politics. Resolutions were passed protesting against Asiatic emmigration into Canada and seeking restrictions of Japanese and Hindoos, as well as Chinese. There was a strong contest for control by the Socialists in the congress, but this was defeated.

He Who Chews Will Know

The Proof is in the Chewing

The wholesome flavor and delightful, appetizing aroma of the tobacco grown in the famous Piedmont tobacco belt continues to create and popularize man's fondness for chewing tobacco. Lovers of real tobacco pass the good thing along—one chewer makes another chewer—until there are now many more chewers and more pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold, than there are in the States where SCHNAPPS has not yet been offered to the trade.

Only choice selections of well matured, thoroughly cured tobaccos, grown in the famous Piedmont tobacco belt, are used in making SCHNAPPS.

That's why it has a better quality and more lasting flavor than the tobacco formerly sold to chewers at double the price they now pay for SCHNAPPS.

That's why a 10-cent plug of SCHNAPPS is more economical than a much larger plug of cheap tobacco.

That's why SCHNAPPS wins all classes of chewers: the rich, because they do not find a chew to really please them better at any price; the poor, because they get their money's worth of the real snappy chew and flavor not found in the highly sweetened mixtures. Neither the rich nor the poor wish to chew tobacco so intensely sweet that its true flavor and tooth-preserving quality are lost.

Look for the word "SCHNAPPS" on the tag, and on the plug under the tag and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the quality and bring out the flavor—the real tobacco flavor that stimulates and satisfies.

Sold at 50c. per pound in 5c. cuts. Strictly 10c. and 15c. plugs.

Pain From a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists.

The Sun contained a statement a few days ago to the effect that Dutton & Co. would be in the market for seed cotton. This was an error, as, since this firm has disposed of its large ginnery to Mr. Rivers of Starke, they have retired from the seed cotton business. The firm is in the market, however, for the purchase of lint and bale cotton, and will buy all over the State. Upon good authority it is stated that the staple is coming in slowly so far.
